WORK EXPERIENCE

Senior Software Engineer in React js
Bamboorose

10/2021 - Present   *Bengaluru, KA, India*

Achievements/Tasks

- Developed B2B React applications using Redux state management and RESTful APIs.
- Converted JSP screen into React screen with REST API.
- Optimized performance of existing React applications by utilizing best practices such as code splitting, lazy loading.
- Developed and maintained REST APIs for web applications using Java.
- Managed source control system Git when working on collaborative teams building out complex React applications.
- Worked closely with product owners on requirements gathering, design decisions, and implementation strategies for new features in a react application.
- Built reusable UI components that can be used across multiple projects with React.
- Utilized Agile methodologies to manage project timelines and deliverables efficiently.
- Researched new technologies and methodologies to propose innovative software solutions.
- Mentored junior staff members in coding best practices and problem-solving techniques.

Software Engineer in React js
Infosys

08/2019 - 10/2021   *Bengaluru, KA, India*

Achievements/Tasks

- Developed and maintained a high-traffic E-Banking platform using React.js and Materialize CSS.
- Identified web-based user interactions and developed highly responsive user interface components.
- Integrated web applications with back-end systems using RESTful APIs.
- Optimized existing user interface designs to improve usability and accessibility.
- Managed version control and project tracking using Git, facilitating efficient team collaboration

SKILLS

HTML · CSS · JavaScript · React.js · Typescript · Webpack · Redux · Jest · React Testing Library · NX · Next.js · Polymer.js · Lighthouse · Bootstrap · Tailwindcss · Material UI · Kendo UI · Jquery · Ajax · Node.js · Express.js · Mongo DB · WordPress · Web Scrapping · SQL · Python (Basics) · JAVA · Android (Basics) · Selenium

PERSONAL PROJECTS

India Covid-19 Live tracking using react.js
- Developed a real-time Covid-19 tracking website, allowing users to view and interact with data on infected, recovered, active, and death cases by state. Implemented map hover features for detailed state-wise statistics.

GST invoice generator
- Created a small-scale business management Windows app, enabling users to generate GST invoices and track inventory and sales.

TOOLS

IDE
Visual Studio , Eclipse, Android Studio,WordPress

Version Control
SVN,GIT,Bitbucket, Perforce

Tools
Postman, JIRA, Figma

INTERESTS

react.js · next.js · node.js · express.js · web development
